09:20-09:45 The Methods: Variables, Study Design, Analytic Approach
09:45-10:00 Working with a Statistician: 5 Key Interactions
10:00-10:30 Discussion

10:30-11:00 Break

11:00-11:15 Experimental and Observational Study Designs
11:15-11:45 Essential Methodologic Content
11:45-12:00 The Results: Reporting Descriptive and Inferential Data
12:00-12:15 Guidelines for Constructing Tables/Figures
12:15-12:30 Discussion

12:30-13:00 Lunch

13:00-13:25 The Discussion: Interpreting Results, Answering the Research Question
13:25-13:40 Limitations and Conclusions
13:40-13:55 The References: Anchoring the Study
13:55-14:10 The Abstract and Title: Critical Synopses
14:10-14:35 Macro/Micro Editing and the Quality Audit
14:35-14:50 Writing Teams
14:50-15:00 Discussion

15:00-15:30 Break

15:30-15:45	Ethics of Authorship and Funding Disclosure
15:45-15:55	Manuscript Submission
15:55-16:00	Top Reasons for Manuscript Rejection
16:00-16:20	Succeeding in the Peer-Review Response Process
16:20-16:35	Principles of Scholarly Research Writing
16:35-16:40	Evolution of a Hypothesis
16:40-16:55	The International Literature and Individual Researcher
16:55-17.30	Discussion
